BOSTON – Price Chopper Supermarkets/Market 32, headquartered in Schenectady, New York, recently signed an agreement with WorldCare International, Inc. (WorldCare) to provide medical second opinion (MSO) services to their teammates.

WorldCare will provide MSO services to teammates enrolled in Price Chopper's medical coverage as well as their dependents under the age of 65. When a member is diagnosed with a serious or complex medical condition, the WorldCare MSO service provides the teammate and their treating physician with access to the expertise of a network of leading medical specialists and sub-specialists in North America's top-ranked teaching and research hospitals, which comprise The WorldCare Consortium®. A team of specialists reviews and modifies or confirms the teammate's original diagnosis and provides optimal treatment plan recommendations. The entire process is overseen by WorldCare's Global Medical Director, Dr. Richard Heinzl, and a Nurse Case Manager. The MSO service empowers Price Chopper Supermarkets/Market 32 teammates and their treating physicians with the information and resources needed to make the most informed medical decisions possible.

"We are pleased to work with Price Chopper Supermarkets/Market 32 to offer this important service to their teammates and eligible dependents. By providing access to our services, Price Chopper/Market 32 truly showcases their dedication to the health and well-being of their teammates," said Hassan S. Sharif, MD, President and Chief Operating Officer, WorldCare International, Inc.

"We are excited to offer this new benefit to our enrolled teammates in 2018. As an organization that has been committed to maintaining its focus on wellness initiatives for nearly two decades, we continually look for new ways to expand the tools teammates have available to aid in caring for themselves and their families", said Shelley Florence, Vice President Human Resource Administration, Price Chopper Supermarkets/Market 32.

About WorldCare International, Inc.

WorldCare's mission is to improve healthcare outcomes of members worldwide by connecting them to the foremost medical experts at top-ranked U.S. hospitals. WorldCare fulfills its mission by using a unique virtual medical guidance approach, which digitally recreates the experience of a person walking into the leading medical institutions in the United States, providing the highest-touch coaching, medical second opinions available worldwide.
